OPIT Referral Policy - 2025

OPIT Open Institute of Technology

At OPIT, we value our community and the role our students play in sharing their experiences with others. To recognize and reward these efforts, we've developed a structured **Referral Policy**.

Definitions

- **Referee:** A person who introduces or recommends a new candidate to OPIT's programs.
- **Referral:** A candidate who was introduced to OPIT's programs by a current student and subsequently becomes a participant (i.e., they sign the enrollment contract and pay the deposit).
- **Participant:** A person who has signed the contract and paid the deposit.

Student Referral Policy - Before Starting the Program

First Referral:
- Referring students who have been admitted, signed the contract, and paid the deposit will receive a tuition discount:
  - €500 for BSc programs
  - €250 for MSc programs
- Referred candidates will also receive a tuition discount applied upon enrollment:
  - €500 for BSc programs
  - €250 for MSc programs

Subsequent Referrals:
- For each additional candidate referred before starting the program:
  - The referring student receives a **€250 Amazon voucher**, issued within one month after the new student starts the program.
  - Each referred candidate continues to receive a tuition discount of €500 (BSc) or €250 (MSc).

Referral Conditions:
- Tuition discounts apply to the **last installment** of the program fee.
- Referrals are valid only if the referring person's name is listed on the **application form**. Referrals submitted after the application will not be accepted.
- **Referral Limit:** Students can refer up to **three candidates**.

Take advantage of this opportunity to build the OPIT community, help others discover our programs, and earn valuable rewards!
